

**DEPARTMENT OF TRANSPORTATION  
DISTRICT 8  
DIVISION OF CONSTRUCTION  
SOUTHERN REGIONAL LABORATORY  
POSITION DUTY STATEMENT**

<b>CLASSIFICATION TITLE</b>	<b>DISTRICT/DIVISION/OFFICE</b>	
Materials and Research Engineering Associate, Specialist	D8-CONSTRUCTION SRL	
<b>WORKING TITLE</b>	<b>POSITION NUMBER</b>	<b>EFFECTIVE DATE</b>
MREA	908-500-3381-xxx	July 2011

**As a valued member of the Caltrans team, you make it possible for the Department to improve the mobility across California by being innovative and flexible; reporting to work regularly and on time; working cooperatively with team members and others; and treating others fairly, honestly and with respect. Your efforts are important to each member of the team, as well as those we serve.**

***GENERAL STATEMENT***

Under the direction of the Senior Transportation Engineer, Supervisor, and lead of a Transportation Engineer Civil (TE Civil), the MREA will perform calibrations, testing and analysis on soils, aggregates, asphalt and concrete samples at the Southern Regional Laboratory (SRL).

***TYPICAL DUTIES***

Percentage	Job Description
Essential (E)/Marginal (M)	
50% (E)	Perform technical and physical testing of soils, aggregates, asphalt concrete, Portland cement concrete and base materials. These tests includes all California Test Methods and other test methods (UCB, ASTM, AASHTO, etc.) necessary to perform mix design for asphalt concrete pavement, Portland cement concrete pavement, base materials, and geotechnical analysis of soil. Prepare and ship samples to HQ as needed.
25% (E)	Calibrate testing equipment used at the materials laboratory in accordance with either the equipment manufacturer's calibration procedures or the procedures dictated by the test method. Makes sure that proper arrangements are made for others to calibrate equipment that cannot be calibrated in-house.
15% (E)	Maintains records of all equipment calibrations in accordance with the Quality Assurance Program. Monitors inventory of laboratory testing equipment in compliance with Quality Assurance Program Guidelines and California Test Method requirements. Prepare reports, charts and graphics about materials analyzed in the laboratory.
10% (M)	Assist with training technicians working in the lab. Occasionally attend meetings and conferences. Perform other duties appropriate for a Materials and Research Engineering Associate.

### ***SUPERVISION EXERCISED OVER OTHERS***

No supervisory duties.

### ***KNOWLEDGE, ABILITIES AND ANALYTICAL REQUIREMENTS***

Must have knowledge of California Test Methods and equipment used to perform physical tests. Employee must be able to utilize mathematics to make calculations using percentages or ratios and plot data to evaluate test results. Employee must have the ability to interpret plans and specifications, analyze and check all necessary test reports on materials incorporated in the work for conformity to applicable specifications.

Must have the ability to communicate effectively both orally and in writing, and must recognize the importance of working as a team. Employee must have the ability to communicate clearly and efficiently with his/her supervisor, Caltrans Headquarters, District personnel and the public. Employee must also have command of basic computer applications such as Lotus Notes, Microsoft, Excel, FileMaker Pro, Microsoft Word and Caltrans custom-made applications.

Employee must have the ability to establish and maintain good and professional working relationships with other Department units, industry and the contractor on Department projects. Employee must be familiar and able to follow the Department policies and procedures.

### ***CONSEQUENCE OF ERROR/RESPONSIBILITY FOR DECISIONS***

Must be able to effectively follow directions and testing procedures, and record and file data properly. Failure to adhere to this may result in inaccurate test results that could reduce the service life of the constructed facility or result in costly claims to the State.

### ***PUBLIC AND INTERNAL CONTACTS***

Maintain close communications with supervisor and other inspection offices. Has daily and frequent contact with fellow branch office, district and HQ TransLab personnel regarding test results and inspection reports.

As a representative of the Department and the State of California, the incumbent is expected to maintain fair, impartial and effective relationship with clients, and conduct himself or herself in a professional and courteous manner at all times.

### ***PHYSICAL, MENTAL AND EMOTIONAL REQUIREMENTS***

Physical activities vary and may be for a lengthy period of time. Employee may be required to sit (1) using a keyboard and video display terminal, and (2) entering and auditing data. While working in the laboratory, employee may be required to stand for extended periods of time to perform materials testing in and around test equipment. Requires manual dexterity to operate testing equipment and handle materials. Employee may be required to be tested and fitted to wear a respirator while working in the laboratory. Employee may occasionally be required to move equipment and test materials that require lifting up to 50 lbs.

Employee may be required to travel to Districts to train laboratory personnel on specific test methods. When working in Districts, employee may be required to stand for long periods of time; pull, push, bend, stoop and squat to examine testing equipment; maintain mental awareness and physical agility when working in the proximity of laboratory machinery. Employee may be required to drive a motor vehicle.

Employee will be required to develop and maintain cooperative working relationship and respond appropriately to difficult situations. The incumbent behaves in a fair and ethical manner toward others and demonstrates a sense of responsibility and commitment to public service. The incumbent values cultural diversity and other individual differences in the workforce. The incumbent considers and responds appropriately to the needs, feelings, and capabilities of different people in different situations.

### ***WORK ENVIRONMENT***

Employee will work in a climate-controlled environment under artificial lighting. Most of the employee's workday will be in the laboratory, where there is exposure to extreme heat, chemicals, odors, dust and noise from laboratory testing equipment. For some part of each day, the employee will work in a climate-controlled office. Both environments are under artificial lighting. The employee may occasionally be required to travel and work outdoors, and may be exposed to dirt, noise, uneven surfaces, and/or extreme heat or cold.

Working hours will be set sometime between 6:00 a.m. and 6:00 p.m. Sometimes, employee may be required to work nights, weekends and split shifts. Vacations may be restricted during peak times. Employee may be required to travel to other satellite offices for training and/or meetings.

I have read, understand and can perform the duties listed above. If you believe you may require accommodation, please discuss this with the hiring supervisor.
